Program Description

Department of Electronics and Communication Engineering organized a webinar on Research Methodology, for the students and faculty members. Dr.T.Subash explains the benefits of Research methodology which includes ,an help provide researchers with a specific plan to follow throughout their research, helps researchers select the correct methods for the objectives, allows researchers to document what they intend to achieve with the research from the outset. The session explains the initial preparations and the way in which information or evidence (data) was gathered or generated, measured and analyzed.

Program Outcome

➢ The participants are able to prepare a journal paper themselves.
➢ Understood the importance of research methodology and writing a journal paper.
